

October 18, 2012

To Whom It May Concern:

PowerStream is pleased to provide this letter of reference for AGT Solar.

AGT was hired as turn-key EPC contractor in early 2012 to design and build a 75 kilowatt solar photovoltaic system at the East Bayfield Community Centre, in Barrie, Ontario for PowerStream. AGT demonstrated excellent schedule integrity with this project, and declared commercial operation one month earlier than expected. Further, there were no safety incidents, there was minimal disruption to East Bayfield Community Centre staff, and there were no unwelcome surprises for us.

The AGT Solar team is an experienced group of professionals who were a pleasure to work with on this project. To date, our system is operating as planned and producing clean energy for the City of Barrie.

PowerStream is quite satisfied with the results of this project and with the effort and commitment exhibited by AGT Solar.

Sincerely,

A handwritten signature in blue ink, appearing to be "Ron Mantay".
