

Renewable Energy SOLVED

Advanced Green Technologies

(AGT), is a sister company to Advanced Roofing Inc. and an award-winning solar energy contractor specializing in rooftop, carport, ground-mount and electric vehicle charging solutions for customers throughout the Southeast U.S. and the Caribbean. Founded in 2007, AGT is an experienced contractor that has completed over 200 solar installations totaling 250 Megawatts.

Growing steadily on our commitment to "Renewable Energy," AGT is ranked as one of the leading commercial solar energy companies in North America by Solar PowerWorld Magazine. From initial project planning and construction to ongoing operations and maintenance, AGT can deliver a comprehensive turnkey solar energy solution that you will be satisfied with from start to finish.

ROOFTOP ▶

Advanced Green Technologies is the established authority in engineering solutions to address the concerns and challenges faced by building owners and developers looking to install a rooftop solar energy system.

CARPORT ▶

Solar Carports are the perfect solution for protecting vehicles and generating clean energy for your property. We take a single-point responsibility for the entire solar carport project that allows us to streamline the process.

GROUND MOUNT ▶

Ground-mounted solar arrays can be a good solution when roof space is limited, and land is available. Our team has extensive experience contracting on large-scale solar farm projects in remote and desolate locations.

EV CHARGING STATION ▶

Advanced Green Technologies has a partnership with ChargePoint, the world's largest electric vehicle (EV) charging network, and can offer EV charging solutions to commercial customers throughout the state of Florida.

Benefits AND INCENTIVES

1. ENVIRONMENTAL BENEFITS

The use of renewable energy can dramatically decrease your carbon footprint. Solar panels can offset the burning of fossil fuels that emit harmful greenhouse gasses.

2. SOCIAL RESPONSIBILITY

Installing a renewable energy system conveys your environmental awareness and responsibility. Stakeholders are more likely to work with companies who have a renewable energy program.

3. FINANCIAL SENSE

With installation costs decreasing and the abundance of federal, state, city, and utility rebates, renewable energy makes more financial sense than ever. There are cost benefits and tax solutions for roofing and solar combined and leasing solutions for low to no money down and 20% + IRR. Contact us today for a free project analysis.

Some Client Words About AGT

"It is obvious that your company motto is hard work and extreme professionalism. Your employees are dedicated and worked as a team to effectively get the job completed on time with all of the proper plans, permits and restrictions."

- Melissa Aiello; President, JA World

"AGT completed the project on time and on budget, with no safety incidents. The installed solar system is operating as planned, and producing clean energy for our schools."

- Antoinette Kelly; Creskill Public Schools

"When constructing a commercial rooftop solar array, the EPC needs to be both rigid to schedule and cost, and flexible to address the unexpected. AGT combines both these distinctly apposite qualities, allowing it to complete projects on time and on budget, all while being a professional organization to work with."

- James Rice; CEO, Nautilus Solar
